I have just been alerted to this. The Federal Attorney General has invited Deborra-lee Furness to the FIRST meeting on the new overseas adoption advisory group meeting. This is just such an unbalanced group to start with and then to have Furness at the first meeting is really too much.

I have written 3 letters to the Attorn Gen recently – he has replied to the first one only to date.

ARMS will send a letter raising our concerns – can you let the network know and they may choose to do the same.

Thanks

Meg
