

Educating the Politicians

Email received Thu 8/05/2008 11:33 AM

We are wondering if you could suggest to Christine Cole to forward her emails, particularly the one dated Monday April 28 2008 at 11:09am "Apology Alliance: Adoption Awareness Week" to the Australian Central Adoption Authority – ACA -Attorney-General's Dept). That email has very clear information about the level of opposition and the level of distress there is in relation to Deborra-Lee Furness's campaign.

We know that the ACA is very interested in the reaction to DLF's campaign and that they are very aware of the need for balance in policy development around intercountry adoption and adoption in general. Christine's information about the level of distress around in relation to this campaign would be excellent information for the ACA to have in relation to getting views from all sides.

Would you be able to suggest this to Christine?

She could just include the ACA's email address, which is: intercountryadoption@ag.gov.au or she could email them directly.
